

PAYNETICS

Paynetics Post

"A huge welcome to all of our new and existing Customers, Partners and Friends. At Paynetics we continue our clear mission to make payments simple. On our first anniversary of launching Paynetics UK we are delighted to release our first edition of this Newsletter where we share some of our recent milestones; particularly in the Digital First and Corporate marketplace". **Mike Peplow, CEO of Paynetics UK**

Let us make on demand payments work for your business today ~ powered by Paynetics

Paynetics has secured Visa Ready certification to simplify payments across Europe. The Visa Ready Program enables partners to launch payment solutions that meet Visa's global standards.

The partnership will enable Paynetics to accelerate the expansion of its innovative payment solutions particularly in the B2B marketplace.

Particularly solving problems together in the Gig economy where workers need to access their wages on demand.

More announcements coming soon on this collaboration.

Leaders in Innovation & Digital First

Paynetics is now processing the electrical vehicle charging terminals in the UK. The first phase of unattended Point of Sale (POS) is in partnership with INSTAVOLT at McDonalds and Costa Coffee in Salisbury. The rollout is set to continue across the UK.

**Accept payments
directly on your phone**

phos is the first software solution which turns any Android NFC-enabled device into a POS terminal

Our sister company [Phos - the phone as a POS](#) has secured **€2 million** in funding.

Brad Hyett, CEO of phos, says: *"Securing further investment helps us accelerate our expansion into new markets and support more retailers in more countries to accept high value transactions. All while delivering a seamless shopping experience, irrespective of their size or scale."*
